NEW PRODUCT RELEASE

inTune i3

INTRODUCING THE NEW INTUNE i3

DiabloSport's 3rd generation inTune, the "i3", brings the same great power, features, and application coverage that has established the brand as a "must-have" for performance enthusiasts. The inTune i3, while designed to keep drivers equipped with added horsepower and torque, is also available with 50 state certification. Now performance and compliance are bundled to deliver more for your car, SUV, or truck paired with assurance knowing you are covered at your local smog or emissions center. 50 State CARB (California Air Resources Board) certification is critical for vehicle owners that drive daily and recreationally, and not just in California! DiabloSport has made the investment in time and resources to keep your vehicle in compliance without sacrificing any power or cutting corners.

KEY PRODUCT FEATURES

- Vehicle licenses available to tune multiple vehicles with just one device!
- New intuitive online update software to keep your i3 current with extended coverage/features, add an extended product warranty, and more
- Industry-leading vehicle application coverage for 1,000s of cars, trucks, Jeeps®, and SUVs
- Update on the go with Wi-Fi connectivity
- 50 State Legal Certification under CARB E.O.# D-770

See coverage matrix for a list of coverage by OEM. Add power, drive with a 50-state legal guarantee, and enjoy the new DiabloSport inTune i3!

Features may vary based on year, make, & model.

The 50-state inTune i3 is not CMR compatible.

NEW PRODUCT RELEASE

inTune i3 PLATINUM

GIVE YOUR RIDE THE PLATINUM TREATMENT

The team at DiabloSport is loaded with performance enthusiasts addicted to tuning, horsepower, and racing. While we deliver the best pre-loaded tunes in the business, the Diablo crew knows and appreciates what is really needed for consumers that want to take their vehicle to the next level. We understand the need for specifically tailored power options and features for select hard part set ups on your car. Enter the inTune i3 Platinum! Whether you've added a cam, headers, a supercharger or more, the i3 Platinum is compatible with the most sophisticated tuning software on the market today to "dial-in" your ride.

The i3 performance programmer works hand-in-hand with CMR, allowing you, and the tuning shop of your choice, to tune specifically for your aftermarket modifications. From there the sky is the limit: you can add high-performance cams, headers, fuel injectors, turbo, or a supercharger – all of which hinge on capability found with the i3 Platinum. You've made a significant investment in premium parts for your vehicle. Now let the DiabloSport inTune i3 Platinum tie all the ingredients together to make your ride standout.
