

2019 International Automotive Weathering Technology Symposium

31 January 2019 • Pune, India

This international, one-day event is offered **free of charge**. Learn about the current trends in Automotive Weathering & Corrosion Technology and more!

This seminar features exciting presentations given by distinguished speakers from various renowned industries:

 **Q-Lab Corporation**, Jim Regan: Modern Corrosion Testing - An exploration and explanation of the development of modern automotive test standards.

 **Volkswagen India**, Satish Dhondage: Automotive Weathering Testing

 **Asian Paints**, Venkat Chada: Capabilities of Laboratory Weathering Instruments for High Performance Material Testing

 **SGS**, Dipjyoti Banerjee: Testing Approach to Automotive Standards on Weathering

 **Q-Lab Corporation**, Ron Roberts: ASTM D7869 A Test Method For A New Era in Transportation Coatings Testing.

 **Kingfa**, Ravi Mohan: UV Resistance in Engineering Plastics for Interior Applications

Q-SUN Xe-3
Hands-on demonstrations available during breaks!
