

MRxNavigate

An integrated solution, guiding members through their healthcare journey

At Magellan Rx Management, we are at the forefront of driving innovative clinical programs that improve health outcomes and reduce costs. With MRx Navigate, we focus on simplifying the member healthcare journey, leading them to a healthier, more vibrant life.

By fully integrating the many touchpoints of a member's health and wellness, our team of clinical professionals work closely together to understand the members health care needs and assist them to better manage their condition through education, empowerment and specialized support.

Our team of experienced pharmacists, nurses, behavioral health professionals and health coaches work collaboratively to provide seamless continuity of care and healthcare population management, delivering quality health outcomes and value-based savings.

- Restrospective Review
- Fraud, Waste and Abuse
- Appeals

Navigating the Process

MRx Navigate offers an integrated approach to provide an end-to-end solution and experience that manages the total cost and quality of care for your members. However, we understand that each organization is unique, which is why we also offer the flexibility to choose the MRx Navigate programs as standalone offerings to meet your needs.

Advanced Digital Tools and Analytics

MRx Navigate eliminates gaps in care and improves adherence through advanced digital tools, apps, and analytics that identify members at risk for non-adherence. Driven by data-led, evidence-based algorithms, our programs identify members in need of a care or disease management outreach.

Learn More about Magellan Rx Management Today

At Magellan Rx Management, we are dedicated to supporting the member journey to a healthier, more vibrant life. With MRx Navigate and a total cost of care approach, our focus is on improving health outcomes and reducing costs.
