

Refurbished Medical Equipment Survey

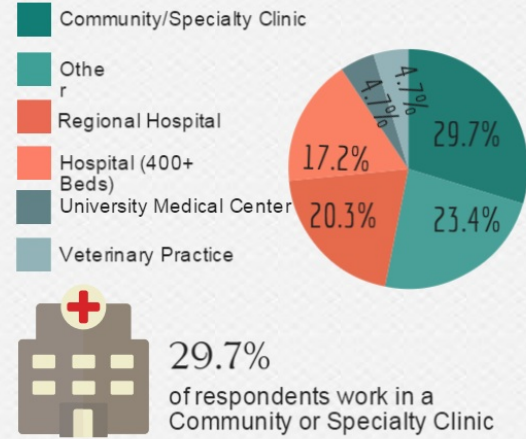

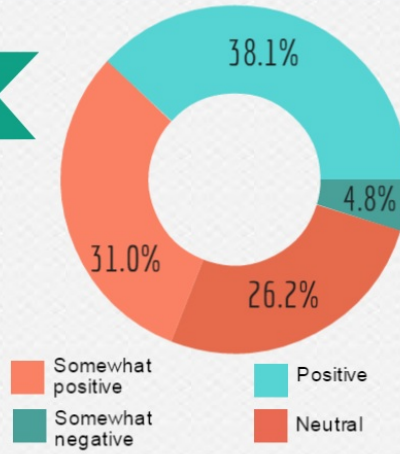

Respondents were given a survey asking questions about their experience with used and refurbished medical equipment.

About the Respondents

96%

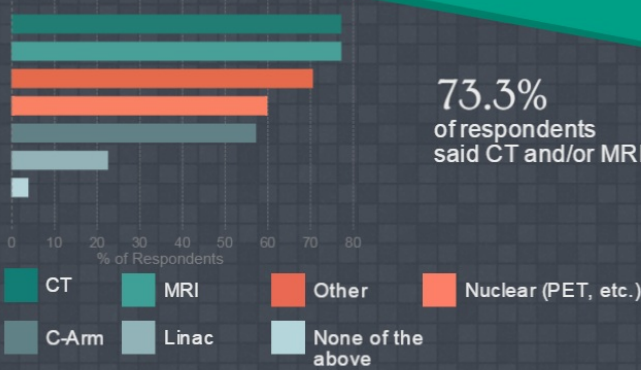

of respondents had neutral-to-positive experiences with used/refurbished equipment

29.7% of respondents work in a Community or Specialty Clinic

My facility/department:

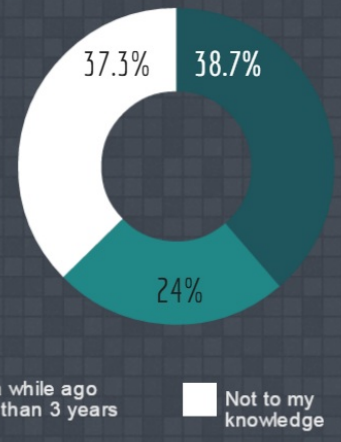

utilizes the following type of equipment:

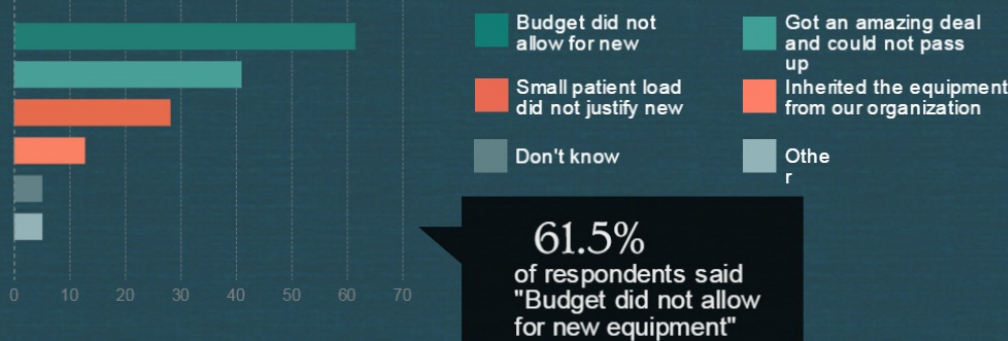

73.3% of respondents said CT and/or MRI

has purchased used/refurbished equipment in the past

62.7% of respondents said "Yes"

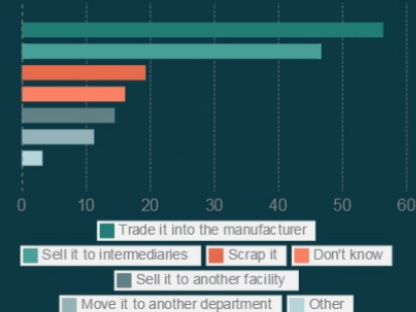

The reason we purchased used/refurbished equipment was:

61.5% of respondents said "Budget did not allow for new equipment"

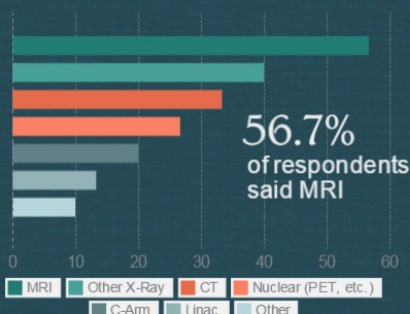

Equipment Removal

When we remove our used equipment, we usually:

56.5% of respondents said they would trade it in to the manufacturer

My facility is open to exploring used/refurbished equipment options in the future for:

56.7% of respondents said MRI

49.3% of respondents said their facility/department was likely to purchase at least one refurbished system in the next one or two years
