

A DRAMATICALLY DIFFERENT

## LAND, LICENSE & FINANCIAL SOLUTION

TO BUILD SMARTER COMMUNITIES.

GovSense is a game-changing land, license and financial management solution designed with you in mind.

If this sounds like you...

We can help.

Waiting to use a software you procured many years ago.	Our rapid time to value empowers your community in months, not years.
Looking to provide a consistent, seamless and omni-government experience to constituents, customers and all departments.	GovSense was built for the sole purpose of creating a smarter community. No frustration required.
Tired of old, stagnant technology that requires specific software or licensing per device?	Use GovSense on any device from anywhere.

DEDICATED TO ENABLING SMARTER COMMUNITIES

## Gamechangers.

We made GovSense because we are tired of seeing local government under-served with inferior technology. We think it's insane that a local government should ever have its hands tied by limitations in software. We want to live in smart communities, so we created a solution that would make it impossible to have anything less.

## Rapid Time-to-Value.

Have you been waiting three or more years for your vendor to finish implementing that multi-million dollar software? \*eyeroll.

We won't do that to you. We know how important it is to look good to your boss and your community and we'll make you look like a freaking rockstar.

DISCOVERY

GO-LIVE

UP AND RUNNING IN WEEKS, NOT YEARS

## We've got you covered.

If you're looking for an end-to-end solution that will keep your permitting department as happy as your licensing department, we have that. If you want to keep all the GovSense to yourself, we can do that too.
