

INDUSTRY LEADING SECURITY, DESIGNED AND TAILORED FOR THE CONSTRUCTION INDUSTRY.

Jonas Hosted is a dedicated and secure hosting solution, which allows construction businesses to host their information on our secure, cloud-based servers. All information is completely secured and can only be accessed by verified organization members. With Jonas Hosted, you can decrease server and maintenance costs, increase accessibility, grow your business, and become more profitable.

FEATURES

24X7 FULL HARDWARE SUPPORT

With unlimited technical support and a team with years of experience, from single server configurations to a multi-tier architecture, Jonas Hosted prides itself on its extremely responsive 24x7x365 support and monitoring services. Jonas Hosted takes the worry out of managing and maintaining your server, allowing you to focus on what your business does best.

ACCESS ANYTIME AND ANYWHERE

Access Jonas Construction Software from wherever you may be. With Jonas Hosted, information is available through the cloud right from your mobile device or laptop. Conduct more business directly from the jobsite or on the road, effectively enhancing collaboration and productivity.

SINGLE VENDOR FOR HARDWARE AND SOFTWARE

With Jonas Hosted, there is only one call to make for all of your construction software needs. All hardware and software requirements are handled by Jonas Hosted, which helps your business avoid costly downtime, while helping your business maintain a consistent hardware budget with no additional unexpected costs.

NO UPFRONT HARDWARE COSTS OR MAINTENANCE COSTS

Jonas Hosted requires minimal initial costs, as there is no server to purchase. The Jonas Hosted solutions team will consult with your business to select the properly sized solution to fit your exact business requirements.

FULLY MANAGED SECURE SOLUTION

With your server completely hosted and managed by Jonas Hosted, you can rest assured your data will always be safe and secure. Not only does this reduce reliance on either internal or third-party IT support, but it also reduces IT costs as well. From managed infrastructure to advanced disaster recovery, Jonas Hosted has your business covered.

ABOUT JONAS CONSTRUCTION SOFTWARE

Jonas Construction Software provides industry-leading business management and accounting software to our clients. Our fully-integrated solutions provide all of the tools that you need to increase productivity and improve your bottom line. At Jonas, we make it easier for companies to focus on what is important - their customers, their projects and their employees. We do this by streamlining their operations and giving better visibility to the entire organization. This gives your employees the tools to do their jobs better, support your customers and achieve your company goals.

Over 25 years ago, we made a promise called 'Software for Life'. This is our commitment to never phase out any of our products and to continue to invest in improving them, so you'll never have to implement a new system. Jonas Construction Software is backed by Constellation Software Inc. (CSI), a global software company that acquires and builds high market share, mission-critical vertical market software companies. CSI consistently maintains profitable growth and is entirely debt free.
