

SACHEM ZeoGen™ Academic Support

Structure Directing Agents for Zeolite Manufacture

SACHEM is a chemical science company specializing in extremely pure, precise, innovative chemical solutions critical to your processes. SACHEM has been and is a world leader of products used in catalyst and zeolite template applications for more than 30 years. SACHEM's Zeogen™ portfolio includes traditional and exotic Structure Directing Agents (SDA) consulting services.

Available Complimentary Product Samples:

Brand Name:	Description:	Select unit:
ZeoGen™ SDA 440	SDA for Beta Zeolite	<input type="checkbox"/> 1 litre <input type="checkbox"/> 1 gallon
ZeoGen™ SDA 746	SDA for TS-1 Zeolite	<input type="checkbox"/> 1 litre <input type="checkbox"/> 1 gallon
ZeoGen™ SDA 2820	SDA for SSZ-13 Chabazite Zeolite	<input type="checkbox"/> 1 litre <input type="checkbox"/> 1 gallon
ZeoGen™ SDA 2441	SDA for Various Zeolites	<input type="checkbox"/> 1 litre <input type="checkbox"/> 1 gallon
ZeoGen™ SDA 2200	SDA for making EU-1	<input type="checkbox"/> 1 litre <input type="checkbox"/> 1 gallon

Terms and Conditions:

If you are a student or professor, SACHEM is able to offer you complimentary samples. As partial consideration for SACHEM furnishing a chemical sample, Recipient hereby agrees to credit SACHEM as the source of the chemical material in any publications, articles, patents, and all other communications with other parties by the Recipient in which any results from using the chemical are mentioned. Recipient also agrees to pay for freight in advance by providing Recipients' UPS or Federal Express number or by paying estimated freight in advance by credit card. Sample sizes are limited to 1 litre or 1 gallon.
