

# Real-time decision-making with Sage Intacct Dashboards and Reporting

Streamline reporting and elevate your financial transparency.

Financial leaders need accurate, actionable insights to drive strategic decision-making and meet the expectations of stakeholders like board members, executives, and investors. However, managing scattered spreadsheets and manual processes often delays access to critical data. Sage Intacct's dashboards and reporting capabilities are designed to eliminate these challenges, delivering real-time financial visibility that **saves up to 40 hours per month** on reporting and reduces time spent checking data accuracy by **75%**.

## Transform data into actionable insights

Sage Intacct equips you with tools to turn raw data into strategic decisions:

- **Dimension-driven reporting:** Analyze real-time performance using key business drivers without overcomplicating your chart of accounts.
- **Prebuilt financial reports:** Start quickly with out-of-the-box dashboards that you can customize to reflect your organization's unique metrics.
- **Flexible delivery options:** Seamlessly share real-time insights via dashboards, email, or cloud platforms.

## See the complete picture of your business

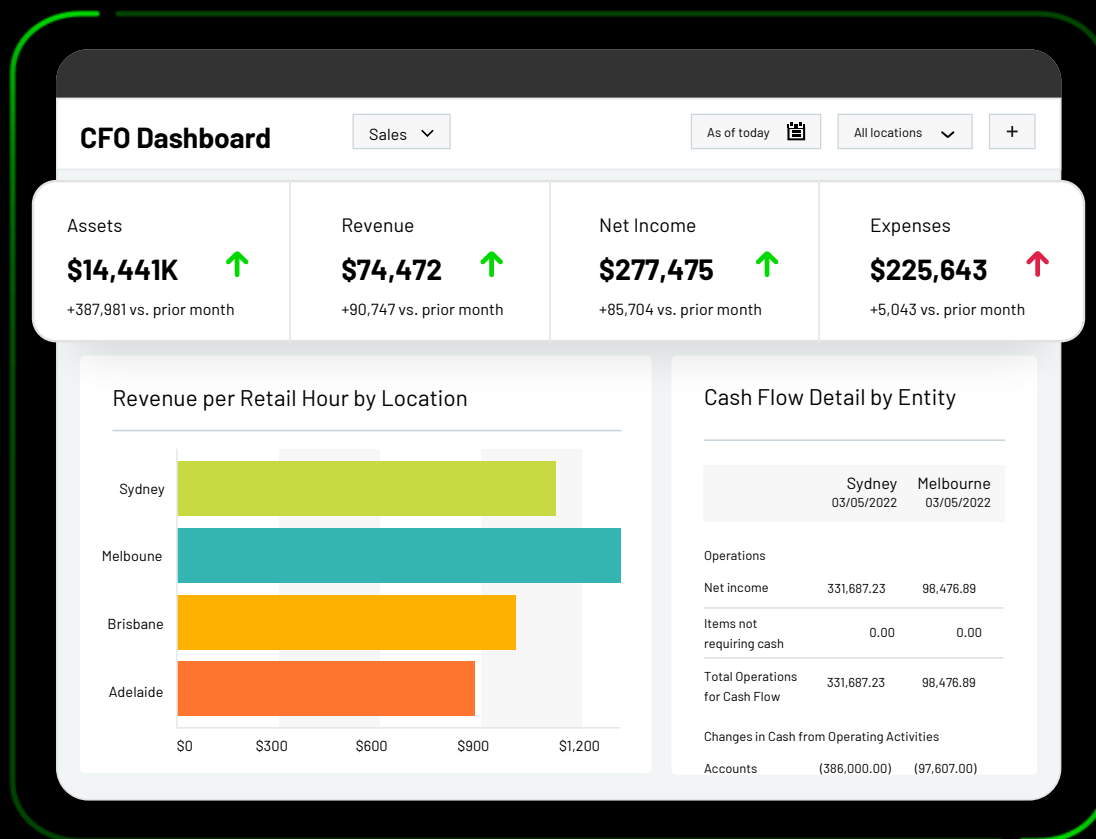

Gain financial transparency and operational clarity across every dimension of your business:

- **Integrated financial and operational reporting:** Access essential metrics such as square footage, available hospital beds, SaaS KPIs, and other business-critical statistics alongside financial data.
- **Drilldown functionality:** Click into source transactions and attachments to explore the full audit trail and spot trends or anomalies.
- **Custom KPIs and visualization:** Highlight key metrics with visual indicators for immediate clarity, like automatically flagging when actuals exceed budgets.

## Deliver tailored insights to every stakeholder

Different business leaders need different insights—but providing tailored tools shouldn't be a bottleneck. With Sage Intacct, you can:

- **Customize reporting views:** Empower executives, department heads, and other stakeholders with reports suited to their roles, whether they rely on real-time metrics or period-close views.
- **Empower agile decision-making:** Enable leaders to slice and dice data across dimensions for quicker strategic insights.
- **Visually highlight critical metrics:** Use striking visual indicators that draw attention to pressing concerns, ensuring nothing important gets missed.

### Real results driving real success

CFOs worldwide trust Sage Intacct to provide clarity that drives performance. Here's what some of them have achieved:

- **Meals on Wheels America:** "We've improved real-time visibility into performance, allowing us to course-correct continuously," says Miller, CFO.

- **Stonestreet Thoroughbred Holdings:** Reduced their monthly reporting time from 10 days to just 4 and saved \$20,000 annually through enhanced visibility.

### Experience real-time financial clarity

With Sage Intacct, financial leaders gain the tools they need to elevate their organizations. Free up valuable time, act faster on critical decisions, and deliver tailored insights to your stakeholders.
