BPA Free* Drums

*Not Intentionally Added

Safe and Compliant

OVERVIEW

- ✓ In response to the regulatory requirements and food safety initiatives, Greif recommends using Tri-Sure® RDL® 100, RDL® 101 and RDL® 102 linings.
- ✓ These linings have the same high chemical resistance and flexibility as the standard RDL® linings, but do not contain BPA.
- ✓ They may be used to pack a broad range of products such as food, pharmaceuticals and cosmetics, where BPA content is a concern.
- ✓ According to EC 1935/2004 food regulation, a declaration of compliance with EU 213/2018 (related to BPA limit) is available upon request for drums and closures.
- ✓ Our RDL® BPA NIA linings are available in pigmented (RDL® 100 brown, RDL® 102 black) or clear (RDL® 101) varieties.
- ✓ Drums can be delivered with PE closures or with steel closures, lacquered with the same BPA NIA lining.

Safe

Align with food safety initiatives and avoid potential health issues generated by exposure to BPA.

Compliant

In line with the new EC regulation for regular food and baby food.

Easy

Same compatibility as the standard RDL® liners.
