

PATENTED

KEYSTONE® PANICLATCH™

REPLACES PANIC BAR APPLICATIONS

The Keystone® self-locking PanicLatch™ features an innovative design to replace panic bar applications. With an easy adjustability of the striker bar using only a screwdriver, this gives flexibility to accommodate varying gap widths between the gate and fence post. All hardware is easily mounted to the fence post and gate using the included screws.

Manufactured from an all-weather, glass-filled nylon designed to withstand commercial and residential applications backed by a million cycle warranty.

- Heavy duty design
- Anti-tamper design
- Secure entry with 6 pin key
- Easy egress with large button

Color difference applied to show round post adapter - part is black.
