

Carbon Markets Solution

Real-time insights of activity and projects in the voluntary offset market

- ➔ Access 24,000 projects, gaining insights into the project pipeline, project types, emerging developer trends, and credit issuance and retirement activity
- ➔ Track activity in the durable and quickly evolving Carbon Dioxide Removal (CDR) market, including supply and demand forecast
- ➔ Benchmark corporate climate strategies and VCM activity with daily updates and pricing intelligence.
- ➔ Coverage of key emerging carbon markets like Article 6 and Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA)
- ➔ Analytics to understand key market trends through monthly updates, quarterly deep dives, and commentaries

Rystad Energy's carbon market offering is a standalone solution, allowing clients detailed and timely insights into the rapidly moving voluntary offset space.

Carbon Markets Solution

Solution coverage

Data

Interactive web-based dashboards:

Access data in easy-to-use interfaces curated for your workflows

Data feed solutions:

VCM data can be accessed through data feeds on several platforms (Snowflake, FTP, Azure, etc)

All charts and tables presented are downloadable to Excel, allowing for full editability and transparency, designed for better decision-making.

What is included

- ✓ Carbon Market Analysis dashboard
- ✓ **Beneficiary overviews:**
Generative AI maps beneficiaries, enabling benchmarking and deep dives into company strategies and buyer activities
- ✓ **Granular project overviews:**
Covering 24,000 projects, including CDR, across 60+ standardized types, we provide insights into demand trends and current critiques in the VCM market

How this helps you

- Perform corporate benchmarking, across sectors or individual companies for volume, portfolio strategy, and decarbonization strategy.
- Track and monitor eligibility of credits for emerging markets like CORSIA and Article 6, including compliance markets
- Gather pricing intelligence from both over-the-counter (OTC) transactions and standardized contracts.

Analytics

Monthly and quarterly reports:

Reports track the latest trends and deliver key market analyses, including activity insights and forecasts, to keep you ahead in the market

Enhance productivity and unlock actionable insight with AskRystad, our AI-powered assistant.
