

RystadEnergy

Gulf of Mexico Solution

Visualize a holistic overview of activity, including exploration performance, emissions and field level analysis for this crucial offshore region

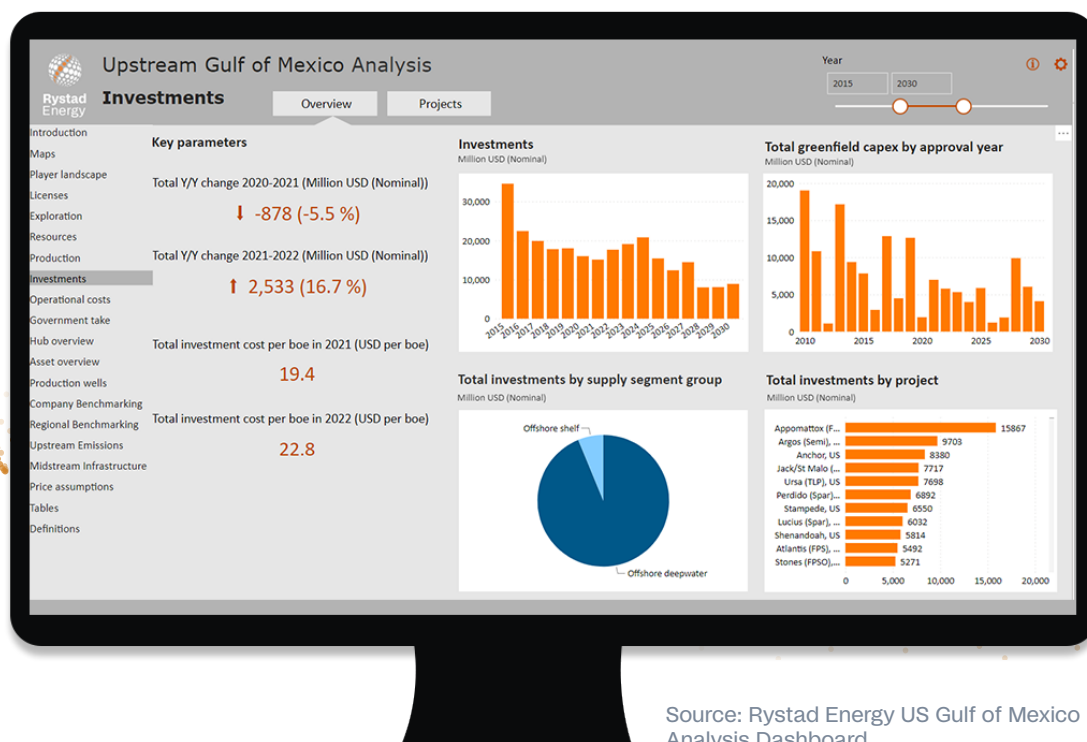

Introduction

The Gulf of Mexico Solution is a comprehensive solution offering a holistic overview of activity in the Gulf of Mexico – subscribers obtain access to granular data with complete coverage of the entire offshore region.

Gain access to peer benchmarking such as exploration performance and strategies and emissions.

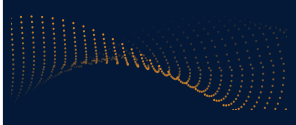

Visualize exploration activity for both historical trends and future outlook. Obtain in depth insight into hub analysis, exploration overview, asset screening, field level analysis and more.

The solution grants unmatched access to GoM asset reports, commentaries and regional trends reports.
