

Land Rigs

Unique insights into global land-rig demand and detailed information on more than 7,500 drilling units

With Rystad Energy's Land Rigs Solution, you will acquire a detailed understanding of global land-rig activity, regional demand, global fleet size and much more.

- ✓ Extensive rig supply data including technical specifications and geographical location for each drilling unit
- ✓ Rig demand for upstream, geothermal and CCUS markets, including overall demand, drilling days, wells completed, operators' historical and forecasted CAPEX spending
- ✓ Rig equipment analysis: equipment suppliers' market shares, drawworks, top drives and mud pumps

Key workflows

Explore the global **supply of drilling rigs**, their locations, technical specifications and owners

Identify **upcoming opportunities** in the local and global drilling market for the upstream, geothermal and CCUS sectors

Analyze the **competitive landscape**, supplier market shares and benchmark your activity against industry competition

Build strategy and make decisions for **new building activity**

Understand **trends** in the onshore rig market, benchmark your fleet against competitors and support finance-raising activity

Assess operator's short, medium and long-term **CAPEX** budget forecasts on land rigs

Solution Coverage

Data

Can be accessed via:

Interactive web-based dashboards: Access data in easy-to-use interfaces curated for your workflows

Analytics

A comprehensive library of expert reports and commentaries:

Frequent commentaries with the latest energy service trends

Segment report reviewing the land rig market, including market shares and demand outlook
