

North America Gas Solution

Get a comprehensive view of the key gas market drivers and indicators at state, regional and national levels

Rystad Energy's North America Gas Market Solution enables you to understand current US gas market fundamentals in an international context, with short and long-term forecasts highlighting market opportunities at the regional level.

→ Request a demo

→ Analyze key gas market drivers and indicators at a regional and state level

→ Supply, demand, LNG exports and piped imports/exports used to develop our near-term North America gas market balance and storage outlook (3 years forecast)

→ Understand the implications of growing power loads and solar generation by analyzing daily power generation by fuel relative to daily weather, relative to the prior year, and relative to gas price changes

→ Daily pipeline scrapes and power generation data offer visibility into feedgas supply to LNG terminals, gas production in key US basins, piped imports and exports, and gas-fired generation

North America Gas Solution

Solution coverage

What is included

How this helps you

Data

Can be accessed via:

Interactive web-based dashboard: Access data in easy-to-use interfaces curated for your workflows

Datafeed integration (option): via ftp, OData or Snowflake

North America Gas Market Fundamentals dashboard

North America Medium-Term Gas Outlook dashboard

Visibility into real-time power generation trends: relative to temperatures for gas, relative to prior years, relative to gas prices

Insight into what each weekly storage injection reported by the EIA implies for how tight or loose the market is

Compare pipeline scrapes to waterborne LNG flows, put historic exports in the context of Rystad Energy's forecast and estimate feedgas losses

Monitor gas production trends in key basins based on daily pipeline scrapes

Analytics

A comprehensive library of expert reports and commentaries

Enhance productivity and unlock actionable insight with AskRystad, our AI-powered assistant.

Monthly North America Gas Market Balance Report

Periodic reports on key topics of interest, with a special focus on tracking pre-FID LNG projects

Stay up-to-date on the latest North American gas fundamentals, including production, LNG and piped exports, and gas-fired generation

Understand which LNG projects are most viable based on commercial, regulatory and feedgas progress
