

FitRite™ Safety Rail

Configurable Safety Guardrail System

Meets OSHA Requirements

1910.29(b) and 1926.502(b)

Custom perimeter safety rail just got easier with RailGuard™ FitRite railing systems. The latest in passive fall protection from Garlock offers complete customization to fit any rooftop, mezzanine or loading dock.

Assembled on-site to fit your application:

1. Choose from 3 Styles of stanchion kits: straight, curved, or inclined.
2. Select the base style: weighted, standing seam, or permanent mount.
3. Order rail by the linear foot.

Multiple fittings are available for customization to allow FitRite to solve just about any rail solution.

Beyond Perimeter Protection:

FitRite can be utilized throughout your facility for everything from skylights, roof hatches, machine guarding, mezzanines, loading docks, ladder, or stairway protection. A variety of self-closing and swing gate options are available to complete your system.

Rugged Construction:

FitRite is designed for rugged outdoor or indoor use with standard galvanized finish. Custom powder coat colors are available.
