

**INNOVATION  
IN PRESERVATION**

# M-Series

**Application Hose and Wands**

## **Cimline's Innovations In Sealant Material Application:**

High quality, application hose and wands with best in industry ergonomics and ease of use keeps your crew on the job with less fatigue delivering better operational efficiency. The new Cimline™ M-Series™ heated hose and wands are one more example of our dedication to innovation in the pavement maintenance industry. They are designed and manufactured by Cimline in the USA for demanding high use applications in the most challenging environments.

## **Cimline Wands:**

Lightest weight and most durable wand design available in the industry today. Less weight on the wand means less fatigue for the operator and greater work efficiency on the job site. Wands are constructed of heavy duty 6063-T6 TIG welded structural aluminum for longest service lifespan.

## **Industry Leading Reliability:**

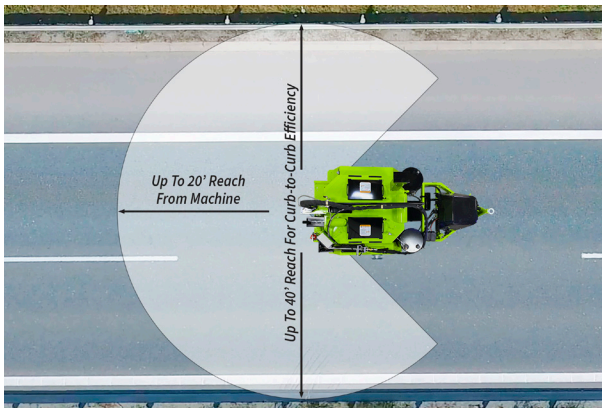

Great for road maintenance crews who put in impossibly long hours, miles of sealant application and week after week of heavy machine use.

## **Cimline High Quality Heated Hose:**

Hose flex and heating cycles tested to over 450,000 cycles representing 5+ years of heavy usage. Heavy duty braided hose jacket for strength, black color for longest lasting aesthetic appearance. Stainless steel flexible conduit protects the wiring as it exits the hose.

## **Best In Class Heating Element:**

Hose has 66% greater heat wrap coverage, especially in critical areas near hose end junctions, heating elements run continuously from the end of the wand to the machine eliminating cold spots.

## SPECIFICATIONS

### Cimline Heated Hose

#303-012-000

Hose Length	20'
Outer Diameter	2-1/4"
Hose Weight	20 Lbs.
Fittings	Stainless Steel
Jacket	Black Braided Fire Retardant Nylon
Hose Inside Diameter	3/4"
Hose Construction	Stainless Steel Braid/Teflon Lined
Warranty	1 Year Limited

### Cimline Wands

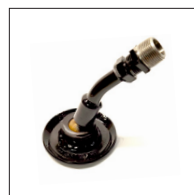

#### Dripless Wand #303-015-000

#### Heated Wand #309-010-902

Wand Length	61"	59"
Wand Weight	12 Lbs.	11 Lbs.
Dripless Technology	3/4" Brass NPT	Rubberized Duck Bill
Wand Build Material	6063-T6 Aluminum	6061-T6 Aluminum
Wand Control Switch(s)	One Piece IP66 Rated	
Wand Grab Handle	1-3/8" OD Tube / 8" Width	
Wand Support	3/4" OD Schedule 40	2.25 x 0.065" Tubing
Heating Element Power	N/A	70 Volt 105 Watt
Heating Element Type		Silicon Encased Element
Warranty	1 Year Limited	1 Year Limited

Due to continuous improvement, specifications are subject to change without notice.
