

AVEVA Reports – Report Creation

AVEVA Reports (formerly Dream Report) is a powerful and easy to use reporting package that connects directly to your AVEVA data collection system. AVEVA Reports is “purpose built” for automation related reports and dashboards. Because it is user friendly, as well as programming and scripting free, there is no better solution for compliance and performance reports and dashboards.

Starting at \$1,600

Our AVEVA Select professional services team is experienced in the creation, design, scheduling and delivery of AVEVA Reports and dashboards. We can assist with reports of all types - from simple daily summary reports to more complex regulatory and compliance reporting. We can also work with your internal team to design some sample reports together so that you can learn the ropes and take over the report creation in the future.
